Extinguishing Media:

PROtech SAFETY DATA SHEET

Specific Hazards from Chemical:	Toxic or irritating gases/fumes may be given off during burning or thermal decomposition. Water runoff from fire fighting may be corrosive. Cool closed containers exposed to fire with water spray. Fight any surrounding fire with suitable fire-extinguishing agents. Flood small amounts of decomposing products with water (add foaming agent to the water for better penetration). Remove any unaffected product. Control smoke with water spray. This product is an NFPA Class 1 Oxidizer.
Special Protective Equipment:	Wear self-contained breathing apparatus and protective suit.
Other Information:	Do not allow run-off from the fire fighting to enter drains or water courses.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions:	Avoid contact with skin, eyes and clothing. Avoid breathing dust. Wear personal protective equipment. Ensure adequate ventilation, especially in confined areas.
Methods and Materials for cleanup:	Remove mechanically with care (e.g. with clean polyethylene plastic shovel). Avoid dust formation. Wash small residues with plenty of water. Do not release into the environment. Do not contaminate water. Do not allow material to contaminate ground water system. If the product contaminates rivers and lakes or drains, inform respective authorities. Never add other substances or waste material to product residue. Offer surplus and non-recyclable solutions to a licensed disposal company.

7. HANDLING AND STORAGE

Handling:	For personal protection see Section 8. Product is hygroscopic. Never pour product residue back into storage container. Risk of decomposition. Keep away from combustible materials. Avoid dust formation.
Storage:	Keep containers tightly closed in a dry, cool and well-ventilated place. Keep away from heat. Do not store over 122 deg F. Avoid impurities (e.g. rust, dust or ash), risk of decomposition. Protect from moisture. Store away from other dangerous and incompatible materials. (NFPA Oxidizer Class 1)

8. EXPOSURE CONTROLS / PERSONAL PROTECTIONS

OSHA permissible exposure limit:	Dipotassium peroxodisulphate: ACGIH TLV: TWA: 0.1 mg/m ³ (as persulfate) - 8 hours.
Appropriate Engineering Controls:	Provide adequate ventilation.
Individual Protection Measures:	Respiratory Protection: When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Hand Protection: Material - impervious gloves. Eye Protection: Wear safety glasses or coverall chemical splash goggles. Skin and Body Protection: Where there is potential for skin contact, have available and wear as appropriate, impervious gloves, apron, pants, jacket, hood and boots. Remove and wash contaminated clothing before re-use. Protective Measures: When using, do not eat or drink. Do not breathe dust.
