pHree & Clear™

Balance Tablets For Swimming Pools and Spas

The Simple Solution to Clear Balanced Water

The first thing you can do to simplify the maintenance of a pool or spa as well as protect your investment is balance the water. Balancing includes establishing the proper levels of calcium hardness, total alkalinity and pH in water. Generally this is accomplished by adding specific amounts of calcium chloride, sodium bicarbonate and either sodium carbonate to raise pH or sodium bisulfate to lower pH. Standard procedure at pool opening and closing, water balance is often forgotten through the swim season when it is needed most. Proper water balance protects pool surfaces and equipment and maximizes the efficiency of all pool water treatments.

WHAT IS pHree & Clear?

- ✓ pHree & Clear is a patented formulation of several carbonates, a clarifier and other compounds in an easy-to-use tablet form.
- ✓ A unique, one-step **maintenance** product applied when pool sanitizer is added.
- ✓ Used on a regular basis throughout the season, pHree & Clear is the simple solution to maintaining a pool's pH, alkalinity and clarity.
- ✓ Use pHree & Clear when you sanitize with trichlor tablets or brominating tablets to keep water balanced throughout the season.

WHAT DOES pHree & Clear DO?

- ✓ **Adjusts alkalinity and pH in one step**
- ✓ **Eliminates pH bounce and helps prevent corrosion**
- ✓ **Clarifies water by enhancing filtration**
- ✓ **Improves sanitizer performance**
- ✓ **No measuring or handling of chemicals**
- ✓ **Helps prevent cobalt staining in fiberglass pools and spas**

EASY TO USE

- ✓ Using a good test kit, test your pool water and adjust if necessary to a pH of 7.2 to 7.6; Total Alkalinity of 100 to 150 ppm; and Calcium Hardness of 200 to 300 ppm.
- ✓ Backwash or clean filter following manufacturer's instructions.
- ✓ **pHree & Clear** is intended for use along with the application of a chlorine or bromine sanitizer. For best results, use with 3" Trichlor (trichloro-s-triazinetrione) or organic bromine (bromochlorodimethylhydantoin) tablets.
- ✓ For routine maintenance, add one 8 ounce **pHree & Clear** tablet for each 3-inch trichlor tab used. For use with other forms of trichlor or brominating tablets, add 2 **pHree & Clear** tablets per week per 10,000 gallons of pool water, or follow more specific dosage instructions on the product label.
- ✓ Simply place the correct number of tablets in the skimmer or in the bottom of the pool over the main drain. **pHree & Clear** Tablets dissolve rapidly and will not harm pool surfaces. If a skimmer is used or any other dosing vessel, make certain it does not contain remnants of any other chemical treatment products. No premixing or dilution is required.
- ✓ **pHree & Clear** is available in 14 pound (28 tablet) and 7 pound (14 tablet) pails.
